

Client Testimonials:

"I have practiced gynecology in Madison, Wisconsin for the last 20 years. During that time I have worked closely with Dane County Cytology Center. I have been **impressed by the service, integrity and availability** of the Cytology Center. On many occasions, I have asked for comparison of specimens interpreted at other laboratories and this has been done without reservation. This allowed me to provide the best possible treatment to my patients. I would **highly recommend** the services of Dane County Cytology Center."

Barbara O'Connell, MD
WomenCare Clinic

"I have utilized Dane County Cytology Center for well over 10 years for thyroid biopsies. Having onsite specimen adequacy analysis has been an invaluable service to our patients. The cytologists are always **prompt and professional**. They are also **thorough, knowledgeable, and approachable**. I would highly recommend Dane County Cytology Center."

Paul M. Reber, DO
Dean Clinic

My association with Dane County Cytology began in 2001 when I started Endocrine practice in Madison, Wisconsin. I have found them to be **truly exceptional** partners who have helped improve patient care. Over the years my colleagues and I have tapped into their expertise which has **greatly enhanced** our diagnostic accuracy. Their knowledgeable and friendly staff have always been available and are more than willing to go the extra distance to clarify and discuss clinical issues. Results are always delivered **promptly and with clarity**. I would recommend their services without any reservation.

Bharat Raman, MD
Dean Clinic

Our Mission

At the Cytology Center we save lives by detecting disease and providing accurate and timely diagnoses to clinicians and their patients. We provide our clients with the finest service available and are dedicated partners in helping them and their patients receive the best care possible.

Our Vision

We will continue to provide the best cytology service available to our clients including high-risk HPV testing and HPV 16/18 genotyping. Together with our business partners, we will be the preferred provider of pathology services in the Midwest. We will be progressive in adopting new technologies and services that will benefit both our clients and their patients and will listen to our clients and work with them to continually update our services to meet their needs.

Dane County Cytology Center, Inc.

has been a leader in cytology for over 50 years. We offer the value and efficiency of a large laboratory while still maintaining the highest level of personal and professional service. We have industry leading turn-around time and provide all the supplies needed to perform each and every test.

Consultations with any of our nine pathologists are available by phone or in person by appointment. Our cytologists are also available to discuss issues and provide information. Additionally, at your request we will provide in-services at your location on any number of topics, including HPV testing guidelines, specimen collection procedures, billing information, or completing requisition forms.

We are accredited by the Centers for Medicare and Medicaid Services (CMS) under the Clinical Laboratory Improvement Amendments (CLIA), and by the College of American Pathologists (CAP) under the Laboratory Accreditation Program (LAP).

- CLIA Number: 52D0393619
- LAP Number: 1784401
